

OVERVIEW

Over 20 years of award winning design with over 400,000 Gyrolock® mounts sold - the Gyrolock® range is the industry standard for AV integrators when mounting projectors up to 30kg.

The Trilok® docking system uses a standardised 'bayonet-style' fitting to carry dedicated projector mounting plates made to fit each projector make & model with universal versions also available. The universal mounts offer a wide range of adjustment not only to cover widely differing projector screw fixing centres but also allow clearance for contour variations often found in projector design.

KEY FEATURES

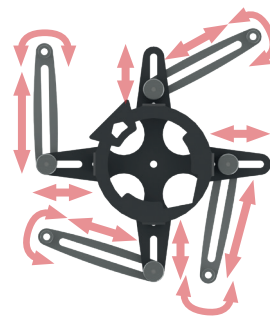

- Wide range of styles and suspension lengths to suit headroom specifications in your installation.
- Column suspension versions allow for increased compatibility with other UNICOL products.
- Over 20 years of award winning design.
- Full tilt and turn adjustment for easy set up.
- Universal mounts offer a weight capacity of 12kg, whilst dedicated mounts cater for projectors up to 20kg.
- Available in Sinterflex Black as standard with Sinterflex White as a no cost option.

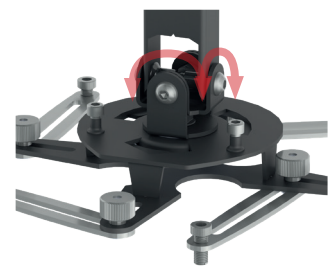

Trilok system allows for easy routine maintenance.

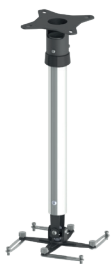

Dedicated Trilok mounts cater to each make and model.

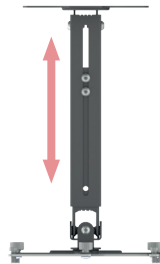

Universal mounts cover differing projector fixing centres

Full tilt and turn adjustment for easy set up.

Column suspension allows projector suspension up to 3m.

Suitable for any headroom with telescopic height adjustment.

Separate adapter plates are available for model changes.

Range of installation styles to suit your requirements.
