The PFW 6850 is an ultra slim wall mount for displays up to 40kg / 88 lbs. that provides three options for the swing arm placement, allowing the mount to swing out from the left, right or center, based on the installation requirements.

The swing-out arm extends 76 cm from the wall and provides 15° of downward tilt to achieve the desired viewing angle from virtually anywhere in a room. The lightweight aluminium mount retracts smoothly and easily to a very thin 3,8 cm from the wall. To keep power and cables protected when pulling or pushing the display, cable management channels are built into the arm.
